COMPANY SUMMARY

Principal activity

Alternative Liquidity Fund Limited (the "Company" or "ALF") was incorporated and registered in Guernsey under The Companies (Guernsey) Law, 2008 on 25 June 2015. The Company's registration number is 60552 and it is regulated by the Guernsey Financial Services Commission ("GFSC") as a non-cellular company limited by shares. The Company is listed on the Specialist Fund Segment ("SFS") of the Main Market of the of the London Stock Exchange ("LSE") since 26 January 2021, when it transferred from the Premium Segment of the LSE.

The Company is pursuing a realisation strategy in relation to its current investment portfolio of illiquid interests in funds, securities and other instruments with the objective to manage, monitor and realise these investments.

Investment policy

The Company's investment policy is to invest in a diversified portfolio of illiquid investments, funds and funds of funds such as hedge funds, private equity funds, real estate funds, infrastructure funds, private investment funds and other alternative investment vehicles, sponsored or managed by investment managers across the world.

The Company may utilise derivatives for the purposes of efficient portfolio management and principally for currency hedging. The portfolio will not be constructed to have any particular geographical bias. Accordingly, the Company has the ability to source and buy assets across the world and denominated in any currency. It is expected that the Company will largely be exposed to US Dollars, which is the Company's reporting currency.

Historically, the Company agreed with Signet Multi-Manager SPC Inc ("SMMI") to acquire an initial portfolio of assets for an aggregate consideration of US\$144 million, conditional upon Admission. The consideration for the Initial Portfolio took the form of ordinary shares which were distributed in specie to the existing investors of SMMI. Following completion of the acquisition of the Initial Portfolio, the Company held approximately 60 investments with an aggregate valuation of US\$138.7 million.

The Company advised by Hindsight Solutions Limited (the "Investment Adviser") is engaged in an orderly wind-up of its remaining assets and these Financial Statements have therefore been prepared on a basis other than going concern. There is no present intention to make any new investments.

Outlook

The Directors' in consultation with the Company's shareholders reviewed various options over the past nine months and continue to pursue a policy of an orderly wind up as the most effective method of returning capital to the Company shareholders.

Due to the diminishing size of the portfolio, the Company continues to reduce costs so far as practical, with a view to recommending the shareholders a voluntary solvent liquidation when the vast majority of assets with positive value have been realised. However, notwithstanding this objective, the Board continues to explore opportunities which may preserve or enhance the intrinsic value of the Company. The board would intend to consult with shareholders prior to recommending any such opportunities.

CHAIRMAN'S STATEMENT

Introduction

I am pleased to present the Interim Report and Unaudited Condensed Interim Financial Statements (the "Financial Statements") for the period from 1 July 2022 to 31 December 2022. The Company is an investment trust listed on the London Stock Exchange ("LSE") in the Specialist Fund Segment which focuses exclusively on the realisation of hedge fund side pockets and other illiquid funds previously held in open-ended structures. The listing has provided liquidity to those shareholders who required it; monthly portfolio reporting; active portfolio realisation management; and superior corporate governance.

Portfolio and performance

The Company's investment portfolio (the "Portfolio") comprises illiquid fund positions emanating principally from the 2008 financial crisis, as well as a small number of secondary investments. It is almost entirely exposed to global emerging markets, with most of the underlying funds denominated in local currencies.

At the start of the period the Company had a Net Asset Value of US\$20.3m and a NAV per share of US\$0.1230. At the end of the period the Company's NAV was US\$14.7m and a NAV per share of US\$0.1003. The Company has a cash balance of approximately US\$1.24m as at 31 December 2022.

The Company announced and paid a \$2.3m distribution to its shareholders in January 2023 following a distribution received from the Vision ELT Fund. These monies were included in the valuation for December 2022 as a debtor as funds credited the cash account at the start of January.

The notable driver of the decrease in NAV was the increase of the Vision FCVS RJ Fund provision, from 40 to 60%.

The Vision Funds now make up 81.63% of the Company's adjusted NAV.

Vision FCVS RJ (Vision RJ)

While the credit portfolio of Vision RJ is quite advanced with a large majority of the credits in the approved status, the portfolio novation has suffered over a decade of delay due to an internal audit started by Caixa (state owned Brazilian bank) nearly 11 years ago. Since then, the overall Vision RJ novation process remained suspended whilst investors waited for the audit report.

In January 2022, Caixa finally rendered its judgment with respect to the internal audit report. At the hearing, the decision was unanimous in validating the recommendations contained in the audit, i.e., to go back to the valuations for contracts before the "suspension" of the Caixa system. There will also be confirmation of the ownership/succession chain to verify the contracts belonging to each agent and the reprocessing of the portfolio.

Vision expected to have the publication of the report for the RJ portfolio in November of 2022, this has not occurred. The report is crucial for Vision to continue to pursue a portfolio sale strategy as it validates the claims in the portfolio. This is a complex legal pool of claims with many stakeholders, Vision continues to believe that the best route is to sell the claims to a local bank or existing stakeholder. The Board and the Investment Adviser agree with this assessment and are supportive of the Vision team's efforts, however, due to uncertainty with regard to timing, the Board has increased the provision against the position from 40% to 60%.

V-Invest Loan

This vehicle was created in November 2016 to fund the working capital requirements of the Vision RJ Cayman Islands vehicles. The suspension of claim novations in Brazil (as described above) led to the Cayman vehicles running out of liquidity and being unable to pay third-party service providers. A loan was arranged to obviate this. The loan was funded by the major shareholders of Vision RJ. ALF invested \$209,023 (out of \$1m) to make certain that no other shareholder controlled more than 50% of the vehicle. This loan is now in default and Vision has approached all shareholders asking them to inject additional cash for working capital requirements. Vision has sought to refinance the existing loan and or find an alternate lender, however, given the delay in receiving the Caxias report on the RJ Portfolio, no one is willing to assume that risk. ALF and the other major shareholders along with the Vision's Independent Directors are exploring potential routes to solve the liquidity issue. We will keep shareholders informed of any developments.

CHAIRMAN'S STATEMENT (CONTINUED)

Vision Special Credit Opportunity Eletrobras Fund (Vision ELT)

The largest claim in Vision ELT is the Siemens claim, which represented approximately half of the Vision ELT Fund NAV at the start of this period. The full amount of the claim was deposited by Eletrobras into a government escrow account in early 2022. The next step is for the court to allow Vision to withdraw the funds from the escrow account and distribute these funds to shareholders. After several (legal) delaying tactics by Eletrobrás, Vision believes that there is now no reason for the court not to allow the withdrawal. However, the exact timing of the withdrawal is uncertain.

In November 2022, after a yearlong sale process, Vision's management successfully sold the balance of the Vision ELT fund (ex-Siemens) to a Brazilian investor. This led to a distribution of \$2.3m for ALF, which in turn allowed the Company to announce and make a shareholder distribution in January 2023, as detailed above. The buyer has recently put forward a bid for Siemens' claim, albeit at a large discount to face value. The Board and the Investment Adviser are discussing the price with Vision and the bidder since a sale at a narrower discount could be in the interest of ALF's shareholders.

During the period the Company received US\$21,800 from underlying manager distributions, comprising:

	US\$
Bennelong Asia Pacific	2,606
Ubique Holdings Limited	2,000
Warana SP 2018 Fund	17,195

The Board has a general policy of making cash distributions to shareholders subject to the need to fund the working capital requirements of the Company and the costs of each distribution.

Outlook

Due to the diminishing size of the portfolio and for reasons previously explained, the Company continues to engage in an orderly wind down and to reduce costs so far as practical, with a view to recommending to the shareholders a voluntary solvent liquidation when the vast majority of assets with positive value have been realised. However, notwithstanding this objective, the Board continues to explore situations which may preserve or enhance the intrinsic value of the Company.

ALTERNATIVE LIQUIDITY FUND LIMITED

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Interim Report and Unaudited Condensed Interim Financial Statements in accordance with applicable law and regulations:

- These Unaudited Condensed Interim Financial Statements, which have been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting' ("IAS 34") with additional disclosure that the Company consider to be relevant, give a true and fair view of the assets, liabilities, financial position and comprehensive income of the Company; and
- The Interim Report includes a fair review of the information required by:
 - DTR 4.2.7R of the Disclosure Guidance and Transparency Rules of the United Kingdom's Financial Conduct Authority, being an indication of important events that have occurred during the period ended 31 December 2022 and their impact on the Unaudited Condensed Interim Financial Statements; and a description of the principal risks and uncertainties for the remaining six months of the year; and
 - DTR 4.2.8R of the Disclosure Guidance and Transparency Rules of the United Kingdom's Financial Conduct Authority, being related party transactions that have taken place during the period ended 31 December 2022 and have materially affected the financial position or performance of the Company during that period, and any changes since the related party transactions described in the last Annual Report that could do so.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website, and for the preparation and dissemination of financial statements. Legislation in Guernsey governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The half-yearly financial report has not been audited or reviewed by auditors pursuant to the Financial Reporting Council guidance on Review of Interim Financial Information.

In accordance with the UK Corporate Governance Code, the Board considered whether these Unaudited Condensed Interim Financial Statements were fair, balanced and understandable and whether they provided the necessary information for shareholders to access the Company's performance, business model and strategy. Having evaluated all of the available information, the assurances by management and underlying processes used to prepare the published financial information, the Board were satisfied that, taken as a whole, the Unaudited Condensed Interim Financial Statements are fair, balanced and understandable

The Company has a diversified shareholder population. As at 22 March 2023, there were only 3 investors with more than 5% of the issued share capital of the Company.

Going Concern

The Interim Financial Statements have been prepared under a basis other than going concern and amended to reflect the fact that the going concern assumption is not appropriate. This involves writing assets down to their net realisable value based on conditions existing at the end of the reporting period and providing for contractual commitments which may have become onerous as a consequence of the decision to wind-down the entity.

Under basis other than going concern, all assets are measured at net realisable value and provisions are made for estimated liquidation costs.

The Directors deem it appropriate to adopt a basis other than going concern in preparing the Interim Financial Statements given the fact they believe that the investments held by the Company may be fully realised and the Company put into liquidation in the next 9 months from the date of approving these Interim Financial Statements in line with the Company's managed wind-down strategy. Please refer to page 2 for detail regarding the Company's Investment Objective and Investment Policy.

The ongoing geopolitical events (such as the Russia/Ukraine crisis) has been a significant influence on global markets and has had an economic impact on certain companies held within the Company's portfolio. The Board and the Investment Advisor closely monitors the latest developments relating to ongoing geopolitical events, and the impacts it may have on the Company's portfolio.

ALTERNATIVE LIQUIDITY FUND LIMITED

STATEMENT OF DIRECTORS' RESPONSIBILITIES, CONTINUED

Going Concern, continued

Accordingly, the Board has adopted a basis other than that of going concern in the preparation of these Interim Financial Statements. The Directors estimate that the wind-down costs will be approximately \$1,684,000 for which a provision has been recorded however no present obligation exists and therefore is not in accordance with IAS 37 however its in-line with the adopting a non-going concern basis of preparation. The Board believes that the Company has sufficient funds available to meet its wind-down costs and day-to-day running costs for the next 9 months from the date of approving these Interim Financial Statements. The Directors consider that the net realisable amount of other assets and liabilities approximate to their fair value and no adjustment is required to their net realisable value under the non-going concern basis of accounting.

PRINCIPAL RISKS AND UNCERTAINTIES

In respect of the Company's system of internal controls and its effectiveness, the Directors:

- are satisfied that they have carried out a robust assessment of the principal risks facing the Company, including those that would threaten its business model, future performance, solvency or liquidity; and
- have reviewed the effectiveness of the risk management and internal control systems including material financial, operational and compliance controls (including those relating to the financial reporting process) and no significant failings or weaknesses were identified.

In the Board's opinion, the principal risk arises from the inherent difficulty of fairly valuing the portfolio assets in current market conditions. In order to manage this risk, the Investment Adviser liaises with the underlying managers and administrators of the investee funds to obtain valuations that are as up to date as possible, and where applicable will update those valuations for movements in relevant foreign exchange rates. In addition the Board, in consultation with the Investment Adviser, may make provisions to adjust the carrying fair value of investments where they believe that such valuations do not reflect the likely realisation value of those investments.

The Board, together with the Investment Adviser have developed a provisioning process to evaluate the portfolio as objectively as possible. In executing this process, the Investment Adviser actively seeks to obtain good quality information from the underlying funds, and reviews and assesses this and the underlying funds' valuation processes, geographical locations and risks associated with the assets. Where possible, this analysis is then checked against observable secondary market activity.

The Board appointed the Investment Adviser after a substantial due diligence process, whereby they evaluated the Investment Adviser experience and expertise in the management of illiquid assets. The Board and the Investment Adviser also hold quarterly board meetings which involve detailed discussions and presentation on the investment performance of the Company and the underlying investee companies. The Board also formally conducts a review of the performance of the Investment Adviser on an annual basis.

Other Risks

- **Market price:** the Company monitors this risk, which is reviewed regularly in consultation with the Investment Adviser.
- **Liquidity:** the Company is mainly invested in securities which lack an established secondary trading market or are otherwise considered illiquid. In the Board's opinion, the risk is its inability to realise assets at a price which reflects the valuation of those assets to date, or indeed at all, due inter alia to illiquidity in the market for such assets and general economic and financial conditions.
- **Regulatory:** the Company operates in a complicated regulatory environment and faces a number of regulatory risks. Breaches of law and regulations, such as GFSC Rules, Codes and Guidance, the SFS Rules, The Companies (Guernsey) Law, 2008, the Disclosure Guidance and Transparency Rules ("DTR") and The Protection of Investors (Bailiwick of Guernsey) Law, 2020 could lead to a number of serious outcomes and reputational damage. The Board monitors compliance with law and regulations by regular review of internal control reports.
- **Interest rate:** the Company does not hold any interest-bearing investments or borrowings directly at the period end. Therefore interest rate risk is limited to the extent of the bank balances and any indirect interest rate risk at the investee company level. The Directors consider the impact of interest rate risk to be immaterial to the Company.
- **COVID-19:** the pandemic has presented a significant risk to the global economy and financial markets, which has resulted in an unprecedented level of market volatility and disruption. The Board has reviewed the business continuity arrangements of the service providers to the Company, which include the ability for all key employees to work from home, and does not believe that the pandemic has had a significant effect on the Company.
- **Geopolitical:** the Company holds assets where the underlying product is in regions which may have unpredictable political circumstances. The locations are continually monitored for changes in the level of risk.

Note 7 to the Audited Financial Statements for the year ended 30 June 2022, contains further details of the 'Risks associated with financial instruments'. Further information on the principal long-term risks and uncertainties of the Company is included in 'Risk Factors' of the prospectus which is available on request from the Company's Administrator.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2022

1. General information

Alternative Liquidity Fund Limited (the "Company") was incorporated and registered in Guernsey under The Companies (Guernsey) Law, 2008 on 25 June 2015. The Company's registration number is 60552 and it is regulated by the Guernsey Financial Services Commission as a registered closed ended collective investment scheme under The Registered Collective Investment Scheme Rules 2015. The Company is listed on the Specialist Fund Segment ("SFS") of the Main Market of the of the London Stock Exchange ("LSE") since 26 January 2021, when it transferred from the Premium Segment of the LSE.

The Company invests in a diversified portfolio of illiquid interests in funds and other instruments and securities with the objective to manage, monitor and realise these investments over time.

The Annual Audited Financial Statements of the Company for the year ended 30 June 2022, which give a true and fair view, were prepared in accordance with International Financial Reporting Standards ("IFRS"), as adopted by the European Union ("EU"), which comprise standards and interpretations approved by the International Accounting Standards Board ("IASB") and endorsed by the EU, together with applicable legal and regulatory requirements of the Companies (Guernsey) Law, 2008 and other applicable rules and regulations.

2. Principal accounting policies

Basis of preparation and Statement of Compliance

These Unaudited Condensed Interim Financial Statements (the "Interim Financial Statements") have been prepared in accordance with IAS 34 "Interim Financial Reporting", as issued by the International Accounting Standards Board ("IASB"), together with applicable legal and regulatory requirements of the Companies (Guernsey) Law, 2008 and the Disclosure Guidance and Transparency Rules ("DTR") of the United Kingdom's Financial Conduct Authority ("FCA"). The Interim Financial Statements have been prepared on a basis other than going concern.

The Interim Financial Statements do not include all the information and disclosures required in Annual Financial Statements and should be read in conjunction with the Company's last Annual Audited Financial Statements for the year ended 30 June 2022.

The accounting policies applied in these Interim Financial Statements are consistent with those applied in the last Annual Audited Financial Statements for the year ended 30 June 2022, which were prepared in accordance with IFRS.

Going concern

The Interim Financial Statements have been prepared under a basis other than going concern and amended to reflect the fact that the going concern assumption is not appropriate. This involves writing assets down to their net realisable value based on conditions existing at the end of the reporting period and providing for contractual commitments which may have become onerous as a consequence of the decision to wind-down the entity.

Under basis other than going concern, all assets are measured at net realisable value and provisions are made for estimated liquidation costs.

The Directors deem it appropriate to adopt a basis other than going concern in preparing the Interim Financial Statements given the fact they believe that the investments held by the Company may be fully realised and the Company put into liquidation in the next 9 months from the date of approving these Interim Financial Statements in line with the Company's managed wind-down strategy. Please refer to page 2 for detail regarding the Company's Investment Objective and Investment Policy.

The ongoing geopolitical events (such as the Russia/Ukraine crisis) has been a significant influence on global markets and has had an economic impact on certain companies held within the Company's portfolio. The Board and the Investment Advisor closely monitors the latest developments relating to ongoing geopolitical events, and the impacts it may have on the Company's portfolio.

2. Principal accounting policies (continued)

Going concern (continued)

Accordingly, the Board has adopted a basis other than that of going concern in the preparation of these Interim Financial Statements. However, prior period comparatives have not been restated for the change in accounting policies as required by IAS 8. The Directors estimate that the wind-down costs will be approximately \$1,684,000 for which a provision has been recorded however no present obligation exists and therefore is not in accordance with IAS 37 however its in-line with the adopting a non-going concern basis of preparation. The Board believes that the Company has sufficient funds available to meet its wind-down costs and day-to-day running costs for the next 9 months from the date of approving these Interim Financial Statements. The Directors consider that the net realisable amount of other assets and liabilities approximate to their fair value and no adjustment is required to their net realisable value under the non-going concern basis of accounting.

Estimates and judgements

There have been no changes to the significant accounting judgements, estimates and assumptions from those applied in the Company's Audited Annual Financial Statements for the year ended 30 June 2022.

Segment reporting

The Board has considered the requirements of IFRS 8 "Operating Segments". The Board is of the view that the Company is engaged in a single segment of business, being investment in a portfolio of hedge funds, funds of hedge funds and other similar assets, with a diverse geographical and asset class exposure, that conducts business in Guernsey. The Board, as a whole, has been determined as constituting the chief operating decision maker of the Company.

The Company has a diversified shareholder population. As at 22 March 2023, there were only 3 investors with more than 5% of the issued share capital of the Company.

New standards, interpretations and amendments adopted by the Company

The accounting policies adopted in the preparation of the Interim Financial Statements are consistent with those followed in the preparation of the Company's Annual Financial Statements for the year ended 30 June 2022, which were prepared in accordance with IFRS as adopted by the European Union. There has been no early adoption, by the Company, of any other standard, interpretation or amendment that has been issued but is not yet effective.

3. Expenses (continued)

Investment Adviser fee

With effect from 1 January 2021, Hindsight Solutions Limited (“Hindsight” or the “Adviser”) was appointed as the Investment Adviser to the Company. Pursuant to the terms of the Advisory Agreement (“AA”) dated 4 December 2020, the Investment Adviser is entitled to receive an investment advisory fee of £23,000 per month payable in advance. The Investment Adviser is also entitled to a realisation fee of 5 per cent of the cash distributed to Shareholders. The Company shall also reimburse all reasonable international travel and expenses properly and necessarily incurred by Hindsight. Under the terms of the AA, the AA shall continue unless and until terminated as provided by the terms of the AA, or by either party giving to the other not less than three months written notice.

Investment adviser’s fees for the period totalled US\$169,606 (31 December 2021: US\$302,721), made up of the fixed monthly fee of £23,000 (in total US\$166,076), realisation fees of US\$nil and US\$3,530 of expenses incurred on behalf of the Company (31 December 2021: US\$110,048 realisation fees and US\$3,454 of expenses), of which US\$nil (30 June 2022: US\$28,009) had been prepaid at the end of the period.

Administration fees

With effect from 14 July 2015, Sanne Fund Services (Guernsey) Limited (the “Administrator”) was appointed as Administrator of the Company. Pursuant to the terms of the Administration and Secretarial Agreement, the Administrator is entitled to receive an administration fee and company secretarial fee, payable monthly in arrears, at the rate of 0.075 per cent per annum of the net assets of the Company, subject to a minimum fee of £86,160 per annum, plus disbursements. The Administrator also receives project fees as agreed by the Board from time to time.

The Administration Agreement can be terminated by either party in writing giving no less than three months’ notice.

Administration fees for the period totalled US\$ 49,944 (31 December 2021: US\$56,514). There was an outstanding balance at the period end of US\$26,027(30 June 2022: US\$25,172).

Custodian fees

With effect from 24 July 2015, Citibank N.A. (London Branch) (the “Custodian”) was appointed as Custodian to the Company. Pursuant to the terms of the Custodian Agreement, the Custodian is entitled to receive a quarterly fee at the rate of 0.035 per cent per annum of the net assets of the Company, subject to a minimum fee of US\$70,000 per annum. Investment transaction fees of US\$150 per trade are also payable.

The Custodian Agreement can be terminated by either party in writing on 60 days’ notice. The Custodian does not have any decision-making discretion in relation to the investment of the assets of the Company.

Custodian fees for the period totalled US\$35,000 (31 December 2021: US\$35,000). A balance of US\$17,500 (30 June 2022: US\$nil) was outstanding at the period end.

4. Tax status

The Company is exempt from Guernsey taxation under the Income Tax (Exempt Bodies) (Guernsey) Ordinance, 1989. A fixed annual fee of £1,200 is payable to the States of Guernsey in respect of this exemption.

c) Valuation models

None of the Company's financial assets or financial liabilities are traded in active markets and therefore the Company is unable to base the fair value of its financial assets and financial liabilities on quoted market prices or broker price quotations. For all financial instruments, the Company determines fair values using other valuation techniques.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- Level 1 - Inputs that are quoted market prices (unadjusted) in active markets for identical instruments.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data.
- Level 3 - Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes investments in unlisted investment funds that have redemption restrictions in place.

Valuation techniques include underlying manager, third party administrator, net asset value reports, observable market prices where they exist and other valuation models. Assumptions and inputs used in valuation techniques include foreign exchange rates and expected price volatilities and correlations, as well as eventual recovery assumptions and time taken to recover value.

The objective of valuation techniques is to arrive at a fair value measurement that reflects the price that would be received to sell the asset or paid to transfer the liability in an orderly transaction between market participants at the measurement date.

The Investment Adviser has developed a discounting process to evaluate the portfolio as objectively as possible by taking into account the quality of information received from the underlying funds, their valuation processes, geographical locations and risks associated with the assets. Where possible, the analysis is then checked against observable secondary market activity. The discount methodology, and the reasons for each discount, which the Board applies where they do not believe the reported value of the underlying asset represents the fair value is detailed further below.

6. Fair value of financial instruments (continued)

c) Valuation models (continued)

Although the Company believes that its estimates of fair value are appropriate, the use of different methodologies or assumptions could lead to different measurements of fair value. For fair value measurements in Level 3, changing one or more of the assumptions used to reasonably possible alternative assumptions would have the following effects on net assets attributable to holders of shares.

	31 December 2022		30 June 2022	
	Favourable	Unfavourable	Favourable	Unfavourable
Change in fair value of investments	US\$7,225,729	US\$(4,271,052)	US\$6,206,723	US\$(2,508,393)

The favourable and unfavourable effects of using reasonably possible alternative assumptions for the valuation of unlisted open-ended investment funds (redemption restricted) have been calculated by recalibrating the net asset values of a number of underlying funds using unobservable inputs. The most significant unobservable inputs are discounts for delay in cash realisation compared to a model, failure to recover certain assets, potential lack of available financing and potential lack of market exit and a reduction in value to reflect discounts needed to achieve exit. The above figures also include a 30% sensitivity analysis on the fair values of the remaining investments in the Company's portfolio for which no unobservable inputs are applied.

Significant unobservable inputs are developed as follows:

- *Discount for anticipated difficulty in recovering NAV:* The Investment Adviser has observed that for a number of reasons, it may not be possible for an underlying fund to recover the full value of its assets. These reasons include, without limitation, the possibility that those assets will not be recognised by a governmental authority and insolvency proceedings affecting the underlying assets. The Investment Adviser has also observed that these risks have not been taken into account when the net asset value of the underlying fund has been calculated. The Board, acting with the advice of the Investment Adviser, has formed the view based on its judgement that a discount should be applied to reflect the fact that there is a material possibility that less than the current stated net asset value of the underlying fund will be recoverable.
- *Discount for lack of certainty over time frame to realisation:* The Investment Adviser has observed that for a number of reasons, it may not be possible for the Company to recover the full value of these assets within a specified time frame. These reasons include, without limitation the fact that the underlying positions are extremely illiquid and dependent upon external factors outside of the underlying Investment Adviser's control.
- *Discount for no efficient or fair secondary market for liquidation:* The Investment Adviser has observed that although a reasonably developed secondary market exists for most illiquid hedge fund portfolios there are some assets and portfolios that the secondary market has not been able to effectively research. This results in an extremely depressed secondary price and liquidity, mainly due to the poor information available.
- *Discount for assets which are caught up in legal proceedings:* The Investment Adviser has observed that it may not be possible for the Company to recover the full value of these assets due to very complicated legal proceedings mainly surrounding their ownership and clean title.
- *Discount for advice of alternative outcome:* The Investment Adviser has observed advice from underlying managers, liquidators or authorised parties that they expect recovery to be materially less than the stated NAV.
- *Discount for lack of/delayed information:* If the NAVs of the underlying assets are delinquent and/or not provided on time the Investment Adviser will apply a discount.
- *Discount for geographic, political or currency related risks:* The Investment Adviser will apply an additional discount if there is a perceived geographic, political or currency related risk.
